BACKGROUND

ABOUT ME

Enthusiastic front end web developer with an outstanding knowledge of current web technologies. Specializing in hand-coded, semantic, cross-browser compatible websites. Demonstrated understanding on web usability responsive design, web accessibility standards, and pixel perfect UI design principles.

EXPERIENCE

2014 - PRESENT

Lead Front End Web Developer

Demandforce - San Francisco, CA

Lead front end web developer as part of the Demandforce marketing team. Developed entire codebase (HTML5, CSS3 / Sass, JQuery) for newly redesigned websites (demandforce.com, fullslate.com). Ran A/B split tests to optimize and evolve websites. Created a series of landing pages and responsive emails for Marketo marketing campaigns.

- Introduced CSS preprocessing (Sass) workflow for modular development
- Developed responsive, cross browser frameworks
- Compiled library of reusable code snippets for quick and efficient deployment

2011 - 2014

Web Developer / IT Specialist

Eco Sound - Tracy, CA

Developed the company's public website and managed the e-commerce site. Oversaw the use of distribution software as well as staff and customer training.

- Developed and handled company Wordpress site
- Developed innovative procedures for use of distribution software that significantly increased efficiency
- Created multimedia promotional materials for customer training

2008 - 2011

Front End Web Developer

Freelance - Edinburgh, Scotland → California

Collaborated with a graphic designer resulting in the highly successful transformation of designs into pixel perfect, semantically coded sites for customers in the US and abroad. Fostered positive customer relations by utilizing client centered communication and organizational skills during all phases of project development and delivery.

EDUCATION

2008 - 2010

Masters, Applied Informatics

Edinburgh Napier University, Scotland

- Completed dissertation on website usability and user-centered design

2000 - 2005

BEng, Computing Science

Edinburgh Napier University, Scotland
